Climate Change
Position Statement

OUR POSITION

Perenti Global Limited is committed to acting on climate change. We recognise that climate change is one of the most pressing issues of our time and that it requires leadership and action from all parts of society.

We accept the scientific consensus on climate change and support the goals of the Paris Climate Agreement to limit the rise in global temperature to well below 2°C above pre-industrial levels.

AS PART OF THIS COMMITMENT, WE WILL:

- Set meaningful climate-related targets.
- Continue to take action to reduce our emissions.
- Promote innovation, develop and deploy low emissions technology and implement projects that improve energy efficiency.
- Work with and actively support our clients to reduce their emissions.
- Support partnerships to accelerate low emission technologies development and build community resilience to climate change.
- Provide climate-related disclosure in alignment with the Taskforce on Climate-related Financial Disclosure (TCFD).
- Incorporate climate-related considerations in our strategic planning, business planning and decision-making.
- Proactively engage with governments, peers, and others to support the development of effective climate change policies.

Approved by the Perenti Board on 11 October 2022.
